

Buy The Close at End Of Day,
but Started Too Early

End of Day Buy The Close: Started Early, but Bull Trend Day

Buy The Close (BTC) bull trend

2 or more consecutive bull bars closing near their highs

B above bull bar closing near its H

Do not have to take every buy signal

Can scalp repeatedly or swing trade

B The Close: Started Early, but in Bull Channel

B The C rally at end of day

Started 12:05 pm PT, which is usually too early to last to end of day unless in strong bull trend

Here, 1st 5 hours were weak bull trend

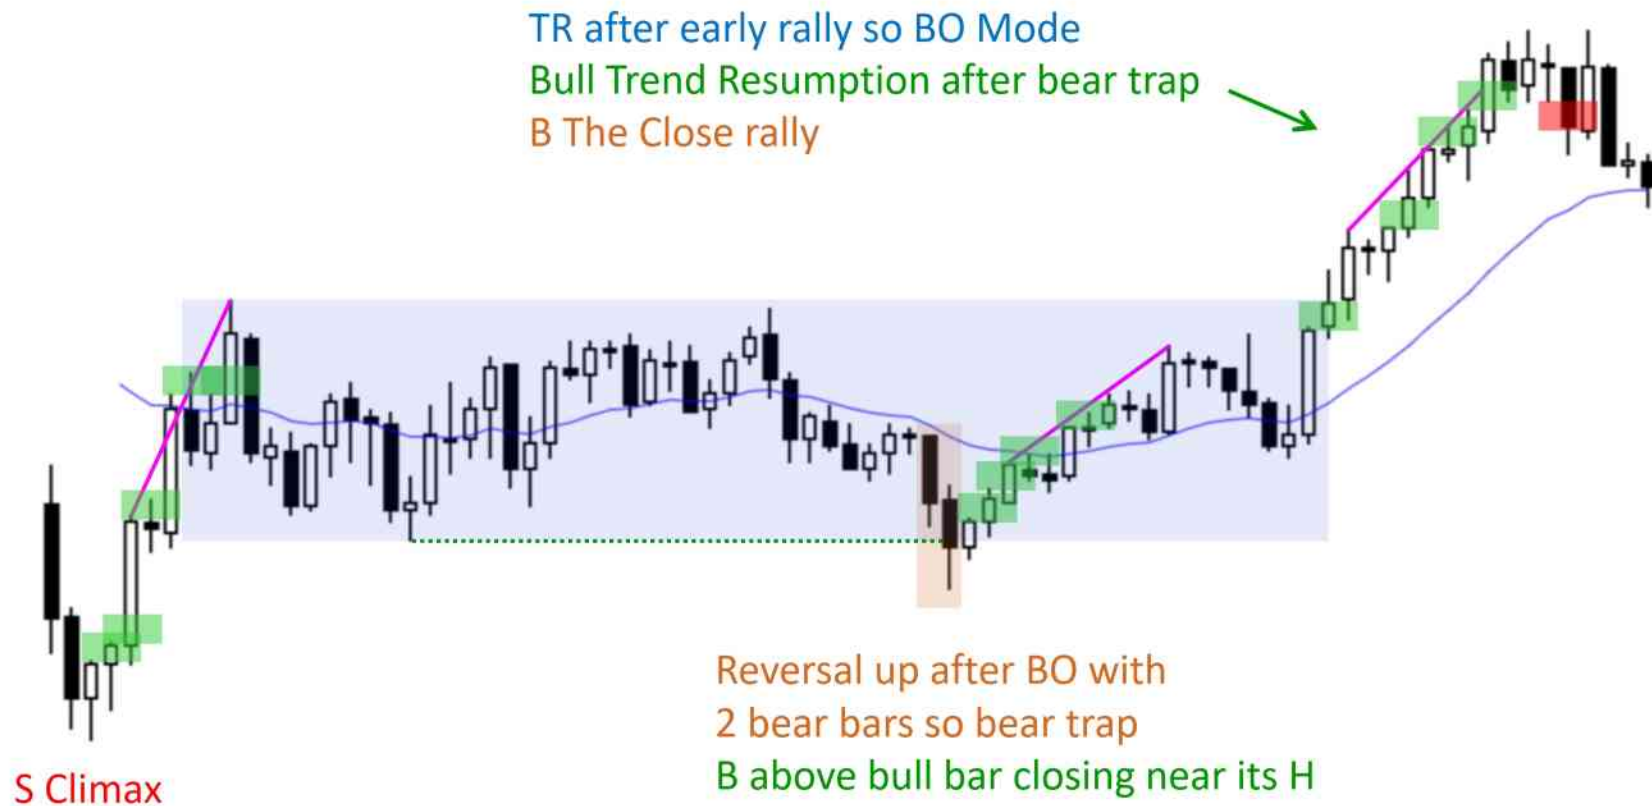

B The Close: Started too Early in TR Day

B The Close rally started 11:05 am PT
In a TR day, that is usually too early
to last to the end of the day

B The Close: Then Bull Trend Resumption

B The Close at End Of Day: Started Too Early

Trend Resumption Up and B The Close began 11:30

Too early to last to end of day after so much TR trading

Look for late reversal down

(If strong bull trend day, BTC can start very early, like 11 am PT)

11:30 am PT
DB HL
B for trend
resumption up
after 4 hour TR

B The Close: Started early, but Lasted Until Close of Day

B The Close rally started 11:45 am PT

Usually too early to last all day unless bull trend day

Here, lasted until the close despite TR for 1st 5 hours

Buy The Close: Began at 12:00 and Lasted Until Close

Buy The Close rally in a bear trend or TR day usually will not last to the close if it starts before 12:30 pm PT

Here, there was a reversal up from a wedge sell climax and the rally lasted until the close

B The Close: Big Bar Late in Rally so Exhaustion

B The Close: Started Too Early in TR Day

In TR day, if B The Close rally starts before 12:30 pm PT,
usually get reversal down before end of day

Selloff can be very fast

Trapped bulls eager to exit before end of day

S below bear bar closing near its L

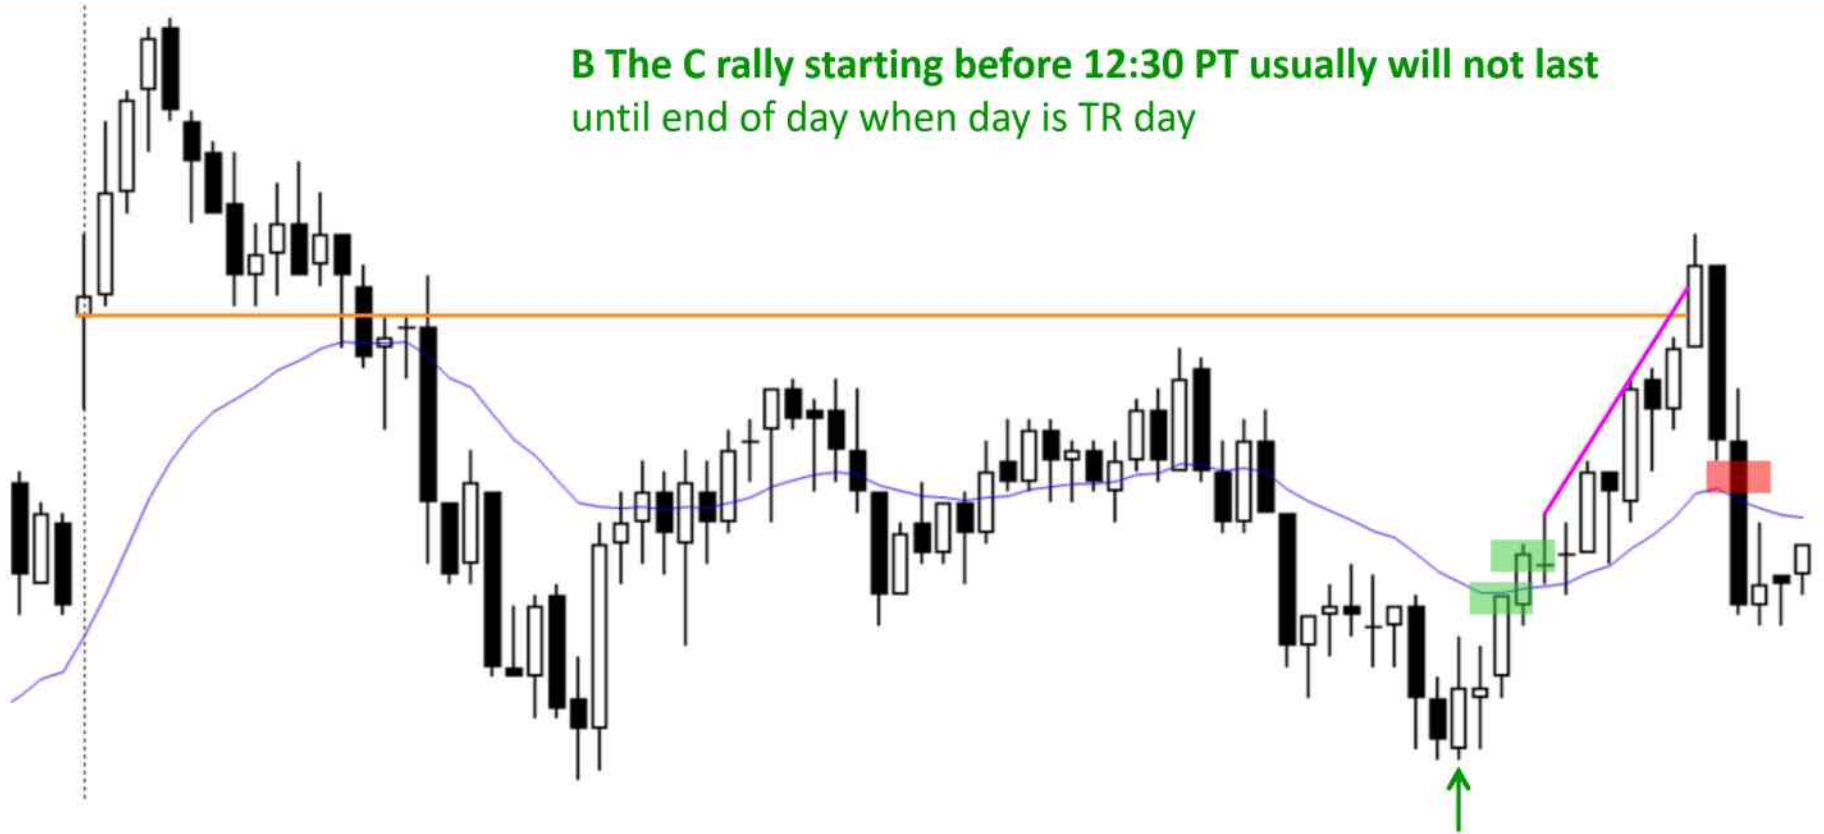

B The Close at End Of Day: Started too Early

BTC at End Of Day: Started Too Early

B The C rally starting before 12:30 PT usually will not last until end of day when day is TR day

B The C rally at end of day started 11:55 am

B The Close at End Of Day: Started Too Early

B The Close rally started 12:05 pm PT

If strong bull day, it can start as early as 11 am PT
and last to end of day

When rally starts before 12:30 and day is not strong bull day,
the rally usually reverses before end of day, like here

Buy The Close at End Of Day: Started Too Early

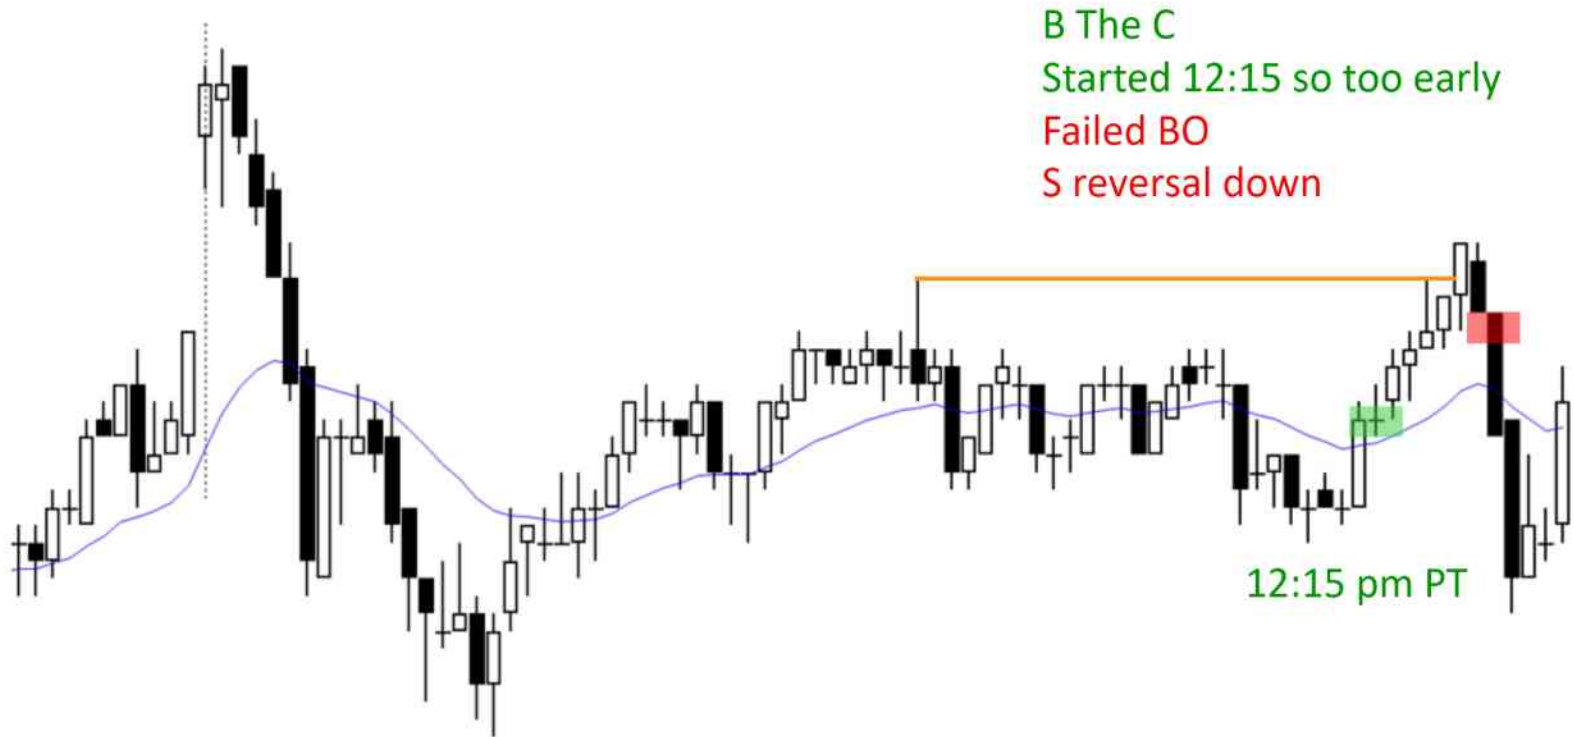

When Buy The Close (BTC) rally at end of day starts before 12:30 pm PT and day is not bull trend day, rally usually will not last to end of day

BTC: Consecutive Buy Climaxes, Started Too Early

BTC at End of Day: Started Too Early

B The Close at End Of Day: Started Too Early, but Lasted

BTC at End Of Day: Started Too Early

If B The Close (BC) rally starts before 12:30 am PT
in TR day or bear trend day,
usually will not last until end of day

Parabolic wedge rally and DT
S below bear bar closing on its L

B The Close rally at end of day,
but started 11:30 am PT

B The C At End Of Day: S below Bear Bar

BTC EOD: If Starts before 12:30, Usually Fails
