

Buy Climax Then
Deep Pullback

Deep PB: After B Climax on Open

3 unusually big bull bars but possible B Climax and

B vacuum test of top of yesterday's TR

B Climax, HH Micro DT

S below bear bar closing near its L

Entire selloff lacks consecutive big bear bars

There are many bull bars and bars with tails

Looks like bear leg in TR

Selloff is just deep PB from Bull Major Surprise BO

Held above bottom of bull BO on open

Selloff held above L of day

Deep PB from bull BO

Bear trend unlikely after Major Bull Surprise BO on open

Might test highest close on open to allow those bulls to exit without loss

BTC: Deep PB so TR Day Likely

Deep PB: Fell below Bottom of Bull Trend

Deep PB: To below Bottom of Bull Trend

The reversal up is both a bull flag that fell below the bull trend and a 2nd bottom attempt

Even bigger, stronger bull Surprise BO
2nd Major Bull Surprise so only 10% chance of new L
90% chance of bull trend or TR (like here)

Exceptionally big bull Surprise Bar so **Major Bull Surprise** today
Major Bull Surprise means bear trend unlikely so either TR or bull trend

PB below Bottom of Big Bull Bar: LL Bull Flag

PB below Bull Trend: Buy Reversal Up

No bear bar in 1st 9 bars

Strong Buying Pressure

Bear trend day unlikely

Today was reversal day and TR day

**Strong trend on open
reverses 50% of time**

Reversal up from below bottom of bull trend

PB from bull trend, even though fell below bottom of bull trend

B above bull bar closing near its H

PB below Bull Trend: Buy Reversal Up

Reversal up from below bottom of bull trend

PB from bull trend, even though fell below bottom of bull trend

B above bull bar closing near its H

Deep PB: Bull Trend From The Open

Big gap down and
then 8-bar bull Micro Channel
Makes strong bear trend
unlikely today

Major Bear Surprise Bar
Might prevent bull trend for rest of day

If neither strong bull or bear trend is likely,
then expect Trading Range

Big Up on open then Big Down
Creates Big Confusion and usually leads to Trading Range
Expect buyers below low of day
