

Buy The Close,  
but Disappointed Bulls  
Lost Money

# B The Close: Deep PB, and Scale-In, Limit Order Bulls Lost

## B The Close Bull Trend

Bear bar so Disappointment Bar

B The Close bulls never had chance to exit without a loss

Better to exit with loss below bear bar closing near its L

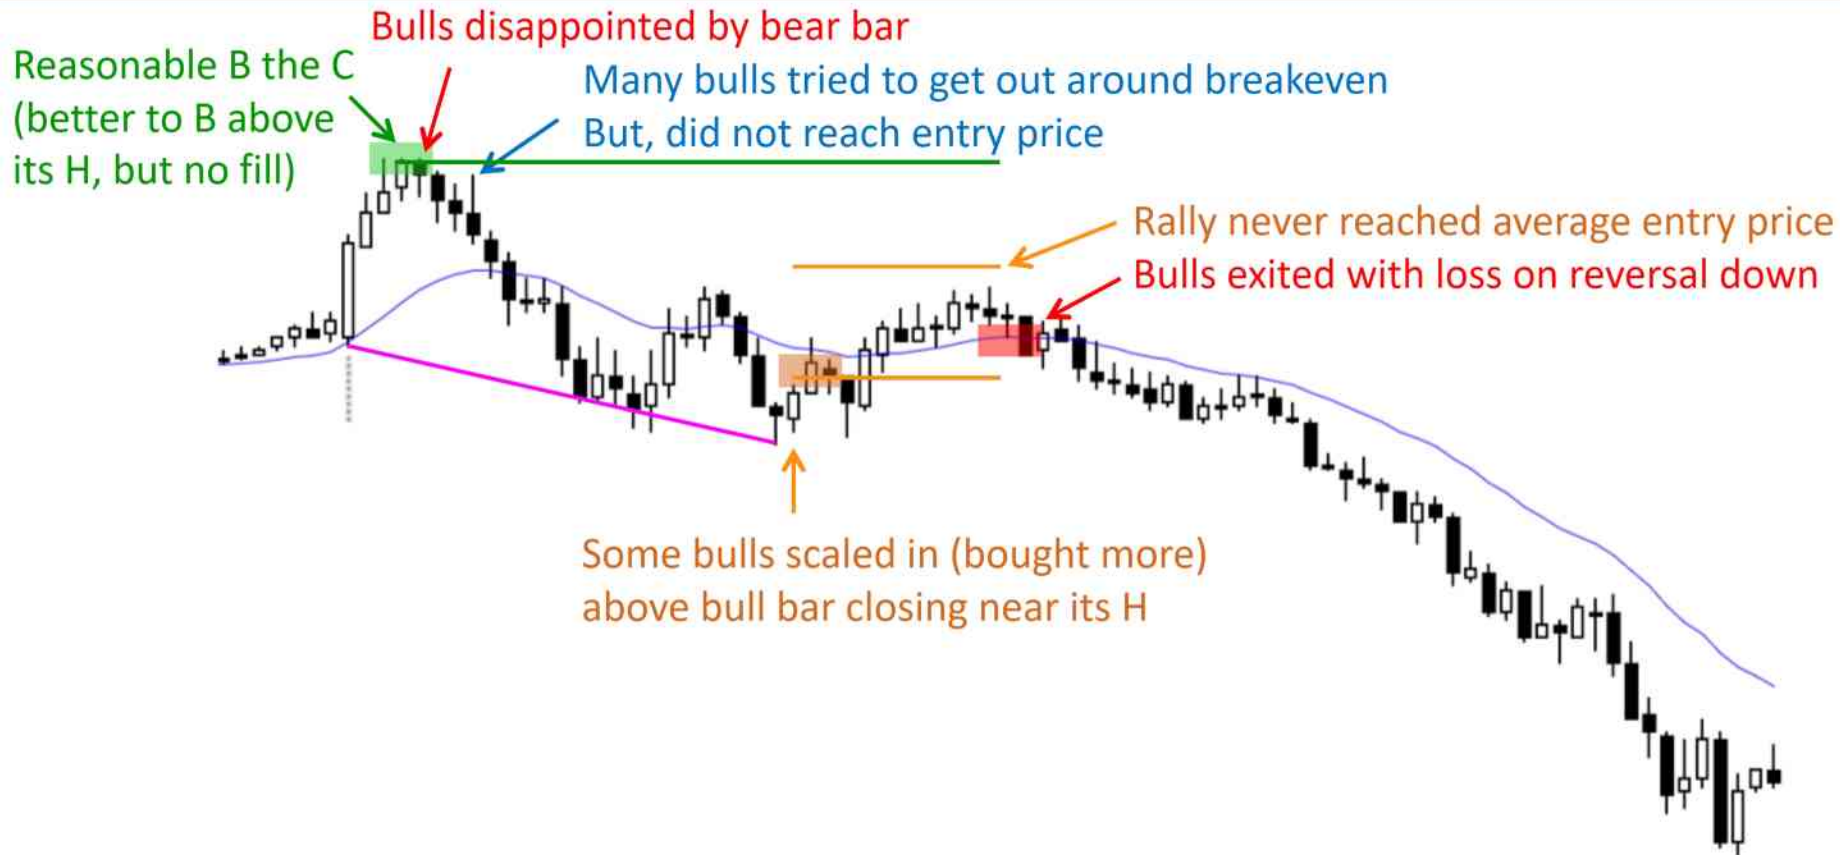

Some will try to exit at midpoint of 2 buy entries to avoid loss  
Here, their limit order was not filled since bar did not go above midpoint

Bulls gave up and took loss during big bear reversal or below its L

Some will B more lower since 80% chance of avoiding loss if scale in and use wide stop  
Here, 2<sup>nd</sup> B signal

## B The Close Bulls: Could Not Avoid Loss

# Buy The Close (BTC): Disappointed Bulls

BTC bulls were disappointed by bear bars  
No micro DT to allow them  
to exit without a loss

If they bought more above strong bull bars,  
they still could not avoid a loss  
Never rallied to average entry price  
Happens 20% of time
