Bears got Measuring Gap

Bulls wanted Exhaustion Gap  
and 2<sup>nd</sup> Leg Bear Trap  
Needed 2<sup>nd</sup> B signal after big bear BO,  
but never got one  
Became bear flag  
S below bear bar closing near L

# Bull Flag: Round Top, Bear BO

Failed BO above  
parabolic wedge  
Possible H of day

Endless PB in tight bear channel  
Becoming less bullish

Strong bear BO  
below wedge bull flag  
Bear bar for follow-through  
Likely Measuring Gap

# Bull Flag: Bear BO

# Nested Parabolic Wedge Top: Weak Selloff, Then TR

Parabolic Wedge (PW)  
nested in 60 min PW

The bear entry and follow-through bars were small  
That made a TR more likely  
than a bear trend
